Why Choose Me | In addition to being board certified by the American Board of Plastic Surgery, I am one of a few plastic surgeons who has undergone fellowship training in cosmetic surgery. Because cosmetic surgery is my area of interest, I limit my practice exclusively to aesthetic surgery.

Medical Philosophy | The decision to undergo surgery can be very difficult. Before surgery, I spend as much time as needed with my patients to gain a full understanding of their goals and desires. I discuss all of the available treatment options, and honestly explain the realistic changes attainable. With this knowledge, you will be well-informed and can proceed with confidence. I want you to look and feel your best. I am committed to providing the highest level of patient care, safety and satisfaction.

My Best Advice to Patients | When considering cosmetic surgery, be careful to avoid marketing gimmicks! Only consider surgery if it can be performed safely, and be certain that you have a strong rapport with your surgeon so you both share a common goal.
